Practical Steps

Money

How can you save money?

What are the benefits of saving money?

What would you like to save for?

How can you save money?

Put a line through the information that is incorrect or dangerous:

- You should never trust your pin number to someone else.
- If you are worried about your finances, you can talk to the Money Advice Service.
- If you take out a loan, it's like free money.
- If you want to lend someone money you should get it in writing that they will pay you back, and you should agree on a timeframe before giving them anything.
- Payday loans are a good way to get money quickly.
- Friends and family are trustworthy to lend money to.
- Your bank will never ask you for your bank details over the phone or in an email.
- Websites can be used to steal people's card information.
- It doesn't matter if you don't keep a budget, you always get more money the next month.
- You should only buy something online if you're sure it's from a genuine seller.
- It's easy to spot a scam, only stupid people fall for them.
- Online banking is a good way to keep track of your finances.
- Credit cards are fine to use – it's easy to get one and then you can buy lots of things.
- If you have money problems, you should tell someone and seek help.
