Interview Adult Student

This exercise is intended to provide participants an opportunity to ask questions and learn from the experience of others. Trainers should identify at least one adult with learning difficulties who has progressed to some form of further education. If possible, the trainer may organize a panel of up to 3 representatives from different settings or vocations.

During the session prior to interview day, the class should compile a list of interview questions. They may add questions on the day based on the discussion, but it will likely be helpful to both the class and the interviewees to have questions prepared in advance.
